SUMMARY

Aspiring Data Analyst with hands-on experience in Python, SQL, Excel, Power BI and R. Proficient in data cleaning, exploratory data analysis (EDA), data visualization and statistical analysis. Experienced in building dashboards and analyzing datasets to generate meaningful insights and support data-driven decisions.

EDUCATION

Bachelor of Data Science & Artificial Intelligence (Pursuing) 06/2025 – 04/2028

Bhavans Empowered College

Mumbai, Maharashtra

Higher Secondary Certificate (HSC)

06/2023 – 04/2025

Embanzer College -- 83.60%

Mumbai, Maharashtra

SKILLS

Languages: Python, R, SQL

Statistics: Descriptive Statistics, Inferential Statistics, Probability, Hypothesis Testing, Regression

Data Analysis: Data Cleaning, Data Manipulation, Exploratory Data Analysis (EDA), Data Visualization

Databases: MySQL, Oracle

BI & Excel: Power BI, Advanced Excel

Soft Skills: Teamwork & Collaboration, Problem Solving and Time Management

CERTIFICATES & ACHIEVEMENTS

- Prompt Engineering Workshop | CDPL
- Advanced Excel & Power BI | CDPL
- Complete Guide in HTML & CSS | Udemy
- 1st place -- LLM Startup Bootcamp

PROJECTS

Netflix Movies Analytics Dashboard | Power BI, Pandas, NumPy

- Developed an **interactive Power BI dashboard** to analyze Netflix movies across content growth, countries, genres, ratings, popularity, languages, and financial performance.
- Cleaned and prepared the dataset using **Pandas and NumPy**, including missing-value handling, duplicate checks, transformations, and profit calculation.
- Created KPI cards for Total Movies, Revenue, Budget, Profit, Average Rating and Total Languages, with interactive filters for Year, Country, Director, and Rating.

EV Charging System Database | MySQL

- Designed a relational database with **five interconnected tables** for users, vehicles, charging stations, slots, and charging sessions using **Primary & Foreign Keys**.
- Implemented MySQL queries for **table creation, data insertion, retrieval, filtering, updating, and deletion**, managing charging-session details such as timings and total cost.

Indian Agriculture Data Analysis & Regression | R

- Analyzed a multi-year Indian agriculture dataset with **80+ variables** across districts and states using **data cleaning, EDA, descriptive statistics, and visualization**.
- Created **scatter plots, heatmaps, pie charts, and 3D visualizations**, and built a **linear regression model** to analyze relationships between agricultural variables and generate data-driven insights

HACKATHON EXPERIENCE

ISRO Bharatiya Antariksha Hackathon 2026 | Team Member

- Contributed to **TerraNova AI**, a climate-focused solution addressing Maharashtra's heatwaves, rainfall delays, and agricultural impact.
- Collaborated with a **4-member team** and presented the solution during the hackathon evaluation.

NexHack 2.0 | Team Member

- Contributed to **HealthGuard**, a healthcare-focused solution, and presented the concept to a mentor during the online presentation round.
